

## POSTER PRESENTATIONS FOR THE SOCIETY OF WETLAND SCIENTISTS 27TH INTERNATIONAL CONFERENCE

No.	PRESENTERS NAME	TITLE OF PRESENTATION
1	James ANDERSON	A simplified method of determining seed biomass for calculating waterfowl carrying capacity
2	James ANDERSON	The status of wetland education at universities in the United States
3	Mariel Eve BAILEY	Four years of pre- and post-restoration monitoring of a southeastern Massachusetts salt marsh
4	Chris BRADLEY	On the dynamics of water movement through a temperate floodplain wetland
5	Shelley BURKS	Decomposition rates in Baisman's and Dead Run stream systems
6	Stacey BYERS	Greater resistance of macrotidal Bay of Fundy marshes to sea-level rise
7	Heather CARPENTER	<i>Schoenoplectus californicus</i> : Phylogeography and management of a capricious sedge
8	Barbora CERNA	Microbial diversity of tropical wetlands in relation to the nutrient content
9	Fion Ka Wing CHEUNG	Seasonality in biotic communities along a salinity gradient in a tropical marsh
10	Farid DAHDOUH-GUEBAS	Retrospective Study of the Mangroves of the Tanbi Wetland Complex, The Gambia
11	Gabriela PALOMO	Co-occurrence of two species of crabs with similar ecological traits: dominance, feeding and burrowing behavior
12	Diane de STEVEN	Landscape dependence of hydrologic patterns in depression wetlands of the United States Lower Coastal Plain
13	Thomas DOYLE	Hydrology of forested wetlands in the Atchafalaya River Basin, a major tributary of the Mississippi River, USA
14	Katarzyna DYSZY	Effects of pond connectedness on three anuran life stages at Delta Marsh, Manitoba, Canada
15	Jörg HELMSCHROT	Characterization and hydrological functioning of man-made wetland patches and shallow ponds in the Thuringian Forest, Germany
16	Dulce INFANTE MARTA	Tropical swamps of the central coastal plain of the Gulf of Mexico: vegetation, hydrology and soil
17	Branson WILLIAMS	Ingression and migration rates of the glass eel stage of American eel ( <i>Anguilla rostrata</i> ) in coastal estuaries of Maryland (U.S.A.)
18	Katie KAMELAMELA	Suburban swimming: what are the bacteria levels in the recreational waters of Kailua?
19	Don KIRBY	Analysis of landscape structure variability for developing a wetland condition prediction model
20	Don KIRBY	Regional assessment of seasonal wetland plant communities using the Index of Plant Community Integrity
21	Robert KROGER	Plant senescence: a mechanism for nutrient release in temperate agricultural wetlands
22	Petr MACEK	Biological activities as a patchiness driving forces in wetlands
23	Ian MARCUS	Riparian corridor restoration using bioengineering techniques
24	David McJANNET	The filter function of a wetland system on the Tully-Murray floodplain
25	Jan-Olaf MEYNECKE	Exploring the effect of climate parameters on estuarine fish catch in Queensland

26	Beth MIDDLETON	The role of hybridization in cattail ( <i>Typha spp.</i> ) invasions of freshwater wetlands in Great Lakes National Parks
27	Gonasagaren NAIDOO	Salinity and waterlogging effects on the saltmarsh rush, <i>Juncus kraussii</i>
28	Jamila-Dawn PAYTON	Assessment of recycled media for managing storm water run-off
29	Stephen PERRISS	Towards setting environmental quality objectives for Victorian lakes
30	Kurt PHILIPP	Evolution of lower tidal marshes of the Delaware Estuary following the restoration of natural tidal flow
31	Gheorghe RAMANESCU	The physico-chemical characteristics of the littoral lakes from the Black Sea's Romanian sector (Midia Cape - Vama Veche)
32	Andy SIEGENTHALER	Do water levels and specific litters affect the greenhouse gases production from the peat at various depths?
33	Andy SIEGENTHALER	Is vegetation a good indicator of carbon dynamics in cutover peatlands?
34	Michael SMITH	Wetlands as landscape units: spatial patterns in salinity and water chemistry
35	Tracey STEGGLES	Don't undervalue your understorey - the response of vegetation to artificial watering at a River Murray Wetland in South Australia
36	Colleen TODD	Environmental water requirement methods for South African Wetlands
37	Joel Prashant JACK	Wintering of aquatic migratory birds in some of lesser known wetlands in Ranga Reddy District aftermath of tsunami Andhra Pradesh, India
38	Renelle WATSON	An investigation of environmental sulphur and microbial communities at Bird Lake, The Coorong, South Australia
